

Nufriha Naseer

Bsc in IT (R) Rajarata University of Sri Lanka

ABOUT ME

Passionate IT undergraduate focused on software development, AI, and data driven technologies. Skilled in programming, web development, and intelligent system design with hands on experience in academic projects. Seeking a Software Engineering internship to enhance technical skills and contribute to innovative solutions.

EDUCATION

BSc in Information Technology(R)
Rajarata University of Sri Lanka

2023 - Present

SKILLS

Project & Management Skills
Database Handling(MySQL)
Machine Learning Basics
Problem Solving & Analytical
Thinking
Team Collaboration

ACHIEVEMENTS

Awarded Top 10 Finalist (4th Place)
at InnOrbit 2026 for developing an
AI-powered rice leaf disease
detection system.

LANGUAGE

- Tamil (Native)
- Sinhala (Native or Bilingual Proficiency)
- English

Akuressa.

ACADEMIC PROJECTS

AI-Based Rice Leaf Disease Detection System (Final Year Project)

2025-2026

- Developed Crop Shield, a mobile app using CNN-based deep learning (Python, TensorFlow/Keras) for real-time rice leaf disease detection and classification, with MySQL for database management.

LSTM-Based Emotion Detection System

2025

- Developed an LSTM-based NLP model using Python, TensorFlow/Keras, NLP, and NLTK for text classification into multiple emotions, optimizing performance for accurate detection and early identification of emotionally vulnerable students.

Code Cure – Medicine Reminder App

2025

- Developed Code Cure, a mobile app using SQLite for local database management. Implemented features to add, delete, and track reminders with dosage, date, and time fields, including notifications and a 7-day history log to record taken or missed medications.

ORGANIZATIONS

• Godapitiya Undergraduate's Association

Chief Executive of Media and Editing

2024-2025

• Godapitiya Undergraduate's Association

Team leader of ICT

2024-2025

CERTIFICATES

- InnOrbit Project Carnival 2026 – Achieved 4th Place (Top 10) for an AI-powered rice leaf disease detection mobile solution.
- Google AI Essentials Specialization 2025 – Completed certification covering AI fundamentals, prompting, productivity tools, and responsible AI use.
- CODEFEST 2025 DevQuest – Represented Rajarata University of Sri Lanka; organized by Faculty of Computing, SLIIT.
- BITCODE V5.0 Preselection Round 2024 – Inter-university coding competition.
